**CPR
in Schools**

BEGINNING WITH THE 2017-18 SCHOOL YEAR HIGH SCHOOL STUDENTS MUST RECEIVE THIRTY (30) MINUTES OF CPR INSTRUCTION AND TRAINING IN THE PROPER PERFORMANCE OF THE HEIMLICH MANEUVER. (SENATE BILL 635)

The CPR in Schools Training Kit is a classroom-based program designed to teach Hands-Only CPR and AED use in one class period. This kit contains everything needed to facilitate a CPR in School training class for 10 to 20 students at once, and the process can easily be repeated to train an entire class, a grade, or even an entire school. Because the manikins are re-usable, one CPR in Schools Training Kit can train hundreds of students!

Training kits will be available beginning August 1, 2017 for check out at your local Southeast RPDC! Please call in advance to arrange a time for pick up.
