

Part I

2:

All of us make decisions daily. Most of these decisions are unimportant--what to wear, what to eat, where to go Friday night--in terms of long-term effects. Sometimes though a decision presents a real dilemma because of its possible consequences: entering the service before going to college, playing high school sports or working after school, ending a relationship.

**In your essay tell about a time when you or someone you know faced such a dilemma.**

Make sure you describe the dilemma and the consequences or the way in which the decision was made with specific details.
